

Fans of Maggie Lane! I also found a hardbound copy of her *Gold and Silver Needlepoint*. The book is pristine, although the dust jacket is slightly worse for wear. No matter – this is THE BOOK to own for those of you who love Asian-inspired needlework. If you missed out on the “Patchwork Kimono” seminar Margaret Beding taught for MTCW a few years ago, there’s a similar model in here, just begging for your thread stash, along with cranes, fans, even a cat or two! Yours for \$30.
