

Petite Treasure Braid 10

At least one card of this versatile thread belongs in every stash! I know, it doesn't look like much wrapped around a piece of white cardboard. Trust me, you will love this little workhorse after one stitching session!

What makes it so terrific is how it disappears into whatever color it's stitched on, leaving only a gorgeous sparkle. I recommend using it in a light stitch, such as the Skip Tent. It's perfect for that lovely background you don't want to ignore, but need to make sure doesn't overshadow the focal point.

When doubled, it makes a terrific beading thread. Since it's clear, there is no need to rethread every time you change bead colors. This little beauty will cut your stitching time in half!

The thread is 65% Rayon, 35% Metalized Polyester. Each 25-yard card is **\$2.75**.
