

I've found a source for this out-of-print treasure. For those of you who love to push your stitching to the limit, this is the ultimate challenge. **Patricia Spencer** won First Place, Best in Class, and Judges' Choice at the Marin County Fair in 1999 for this stunner! I wasn't a member of any local guild at that time. Do any of my readers know her?

If you're not familiar with *Twister*, the piece is stitched in four directionalized sections of layered boxes. The finished piece resembles something drawn on a Spirograph. The book is very well organized, with clear stitch diagrams and a pattern you can either trace onto Congress cloth, or have enlarged for 18-mesh.
